Visualize your success!

About Cloudi

At Cloudi, we aren't just an IT company, but rather technological partners committed to driving success through innovative and data-driven solutions.

Our services range from custom software development to detailed data analysis and Power BI dashboard creation. We tailor our solutions to the unique needs of each business, regardless of the industry.

Our team of experts combines deep technical knowledge with an understanding of the impact of technology on business outcomes. We collaborate with you in designing and executing strategies to achieve success.

We offer a lasting technological partnership, focusing on data optimization and informed decision-making. Our vision is to lead the technological revolution, empowering businesses with cutting-edge solutions and spearheading digital transformation.

We provide powerful analysis and visualizations using tools like Power BI to make informed decisions and chart precise strategies. We are dedicated to guiding our clients toward technological excellence and business growth on this digital transformation journey.

What's Business Intelligence?

It is the ability to transform your data into information, which will allow you to make better decisions in your projects and business areas. This significantly enhances all your processes. Provide your company with the highest quality in results management through our dashboards and thus obtain the real-time information your business needs.

Better use of data

70%

"Our team of IT experts is dedicated to optimizing your company's management, analyzing and making better use of data. If you need a better data analysis strategy, or if you want to enhance its management, we can unlock hidden insights through the implementation of data visualization solutions and tools. This way, we can identify patterns, trends, and improvement opportunities".

Improve your productivity

75%

"In today's business world, efficiency is everything. That's why at Cloudi, we understand the importance of maximizing productivity to achieve success. We take pride in offering IT solutions specifically designed to enhance your operational efficiency and process optimization. Our team of experts is committed to providing you with the tools and necessary technology to tackle the challenges of the current market".

Process visibility and control

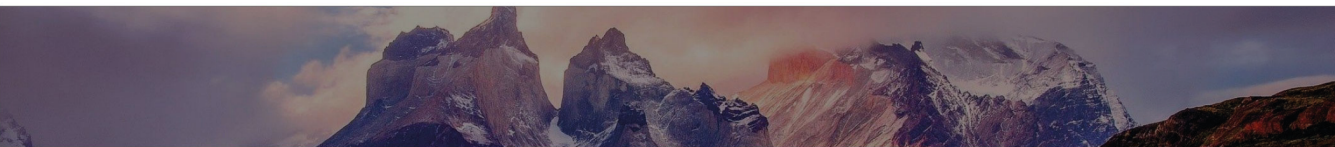

80%

"In today's dynamic business world, efficiency and visibility are crucial to achieving sustainable success. We understand the complexities organizations face when trying to optimize their internal processes and maintain effective control. Our team of highly skilled experts harnesses cutting-edge technologies to integrate systems, automate tasks, and streamline workflows. This not only increases productivity but also provides a deep insight into processes, enabling you to make informed and strategic decisions."

Achievement of goals

85%

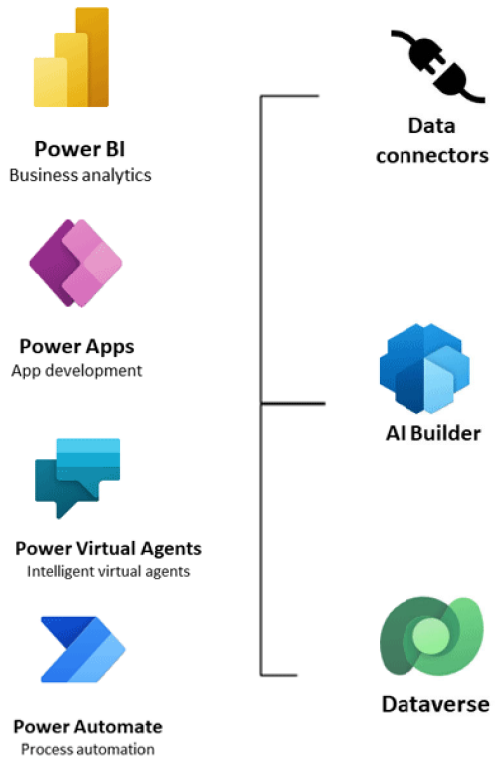

"At Cloudi, through the implementation of advanced systems and cutting-edge technology, we can assist you in monitoring and measuring progress toward your goals. Furthermore, we will provide you with the necessary analysis tools to make the right decisions. Our solutions are scalable and adaptable, and we are committed to providing ongoing support to guide you toward your goals".

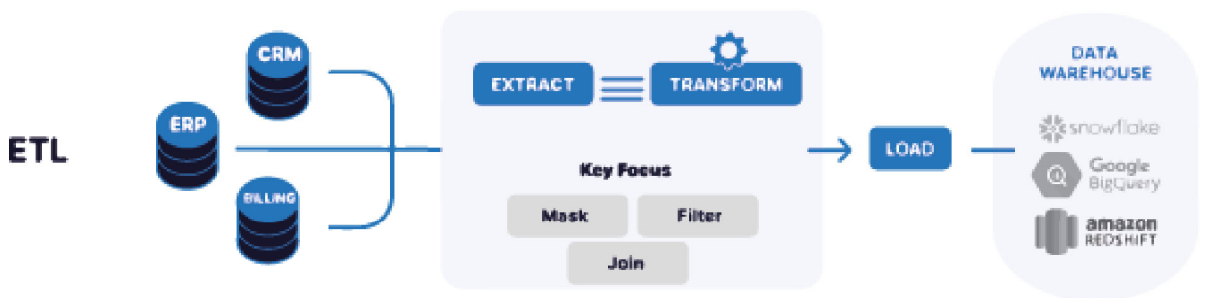

Microsoft Power Platform

The low code platform that spans Microsoft 365, Azure, Dynamics 365, and standalone apps.

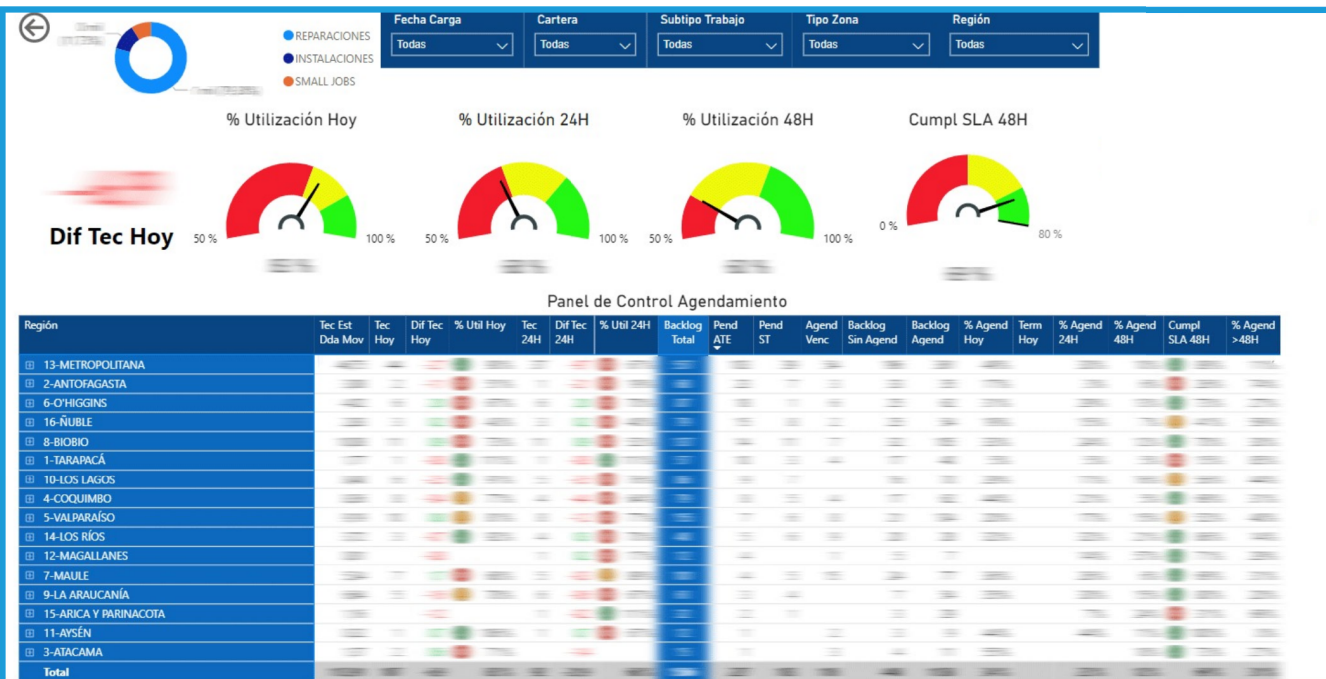

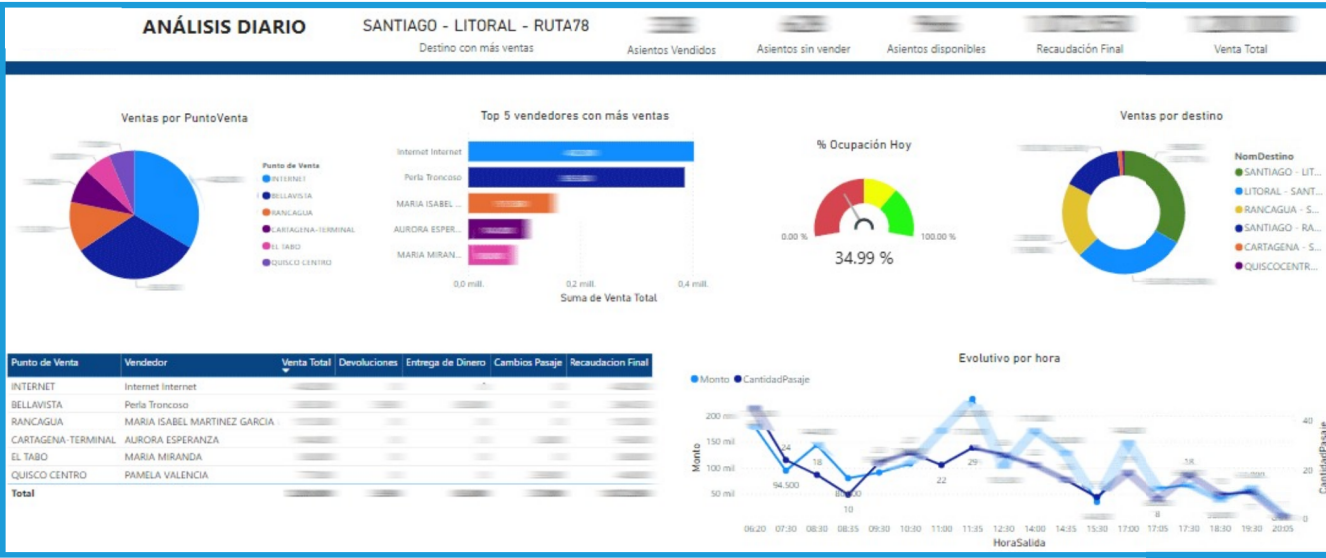

EXTRACT TRANSFORM LOAD

"With ETL, we take your data, whether it's from your Excel spreadsheet or your notebook, so that you can visualize it through Power BI. Below, you'll find visual examples of what you can achieve".

WITH POWER BI WE VISUALIZE YOUR DATA

"Here are some examples of dashboards developed in Power BI that were implemented for two of our major clients. You can see how we work with visualizations to assist with all aspects of decision-making".
